*2027 Recalibrate  
Gathering*

Theme:  
*Do it scared!*

EXCITING DETAILS AND REGISTRATION INFORMATION TO COME.

The unknown and unfamiliar can be scary places *until* they take us on a journey that introduces us to a bodacious version of ourselves we did not know was inconspicuously cocooning.

Perhaps you feel equal parts lost and curious. Perhaps a tinge of purposelessness has been lurking even as you feel a pull to someplace you've never been to experience something you've never done. Well, our **2027 Recalibrate Gathering** is the place for you.

This intimate gathering is where we give attendees – guilt free – permission to accept the universe's invitation to take a new route, make the U-turn, or get off on the mystery ramp.

**May 2027** will be your turn to say YES as we convene some of the country's foremost inspiring voices to showcase **the goodness of recalibration with their life changing work.**
